

The New Rehabilitation Center

One-on-One Licensed Therapy

AQUATIC THERAPY

Hydroworx 2000 Therapy Pool and Private Locker Rooms

- Ascending/descending floor from 0 to 6 feet in depth accommodates adult and pediatric clients at all stages in their recovery and allows for safe and easy entry.
- Underwater cameras and viewing monitors provide instant feedback on progress during the course of treatment.
- Advanced computer documentation provides the ability to record therapy sessions and maintain medical records.
- An integrated variable speed treadmill smoothly increases from 0 to 8.5 mph in safe .2 mph increments.
- Variable speed, multi-directional resistance jets enhance therapy and tissue massage to break-up scar tissue and assist in muscle relaxation.
- Private locker rooms for men and women include wheelchair accessible showers.
- Child proof entry and non-slip flooring both ensure maximum safety.
